Wholesale Department

Dreshertown, Montgomery Co., Pa.

[COPY OF CERTIFICATE]

#### THE COMMONWEALTH OF PENNSYLVANIA DEPARTMENT OF ACRICULTURE

Certificate of Inspection of Nursery Stock No. 142.

This is to certify that the stock in the nursery of THOMAS MEEHAN & SONS, Inc., of Dreshertown, County of Montgomery, State of Pennsylvania, was duly examined in compliance with the provisions of the Act of Legislature of Pennsylvania, approved the 10th day of June, A. D., 1901, and it was found to be apparently free from San Jose Scale and other dangerously injurious insect pest or pests.

This Certificate expires July 31, 1903.

Dated Harrisburg, Pa., August 7, 1902.

GEO. C. BUTZ, Inspector.

### Special Notice

Our nurseries have been carefully inspected and no trace of scale or other injurious insects found. For the benefit of customers, however, who wish stock fumigated, we have erected a fumigating house, and when requested to do so will furnigate shipments before

This will be done, however, entirely at the risk of purchaser.

Long Distance Telephone United States Express Office Ambler, Pa. Telegraph Office

# Important! Please Read!

CUSTOMERS are requested to state the mode of conveyance by which they desire their trees forwarded. When no route is named we forward to the best of our judgment; but in no case do we assume any responsibility after the goods are shipped, unless for our own mistakes.

TERMS CASH, on or before delivery to express or railroad agents, unless by special arrangement.

TWO HUNDRED AND FIFTY, twenty-five and five will be furnished at the thousand, hundred and ten rates respectively. Packing Charged Extra.

Post-Office Orders payable at Dreshertown, Montgomery Co., Pa,

OUR DESCRIPTIVE CATALOGUE is complete and will be sent to all applicants.

VISITORS are always welcome and should take train at 12th and Market Streets, Philadelphia, for Camp Hill Station, or at Broad and Filbert Streets for Fort Hill Station. Be sure that the train you take stops at these stations. NOTICE.—It is necessary that you should Telephone us (26 Ambler) in advance of your coming, so that we can send a carriage to the station for you. Our office is 2½ miles from either station.

# **Notice of Incorporation**

On July 1st, 1902, the firm of Thomas Meehan & Sons was incorporated under the laws of the State of Pennsylvania, consolidating with it the wholesale business of Meehan Brothers, situated at Dreshertown, Montgomery County, Pa. This combination increased the size of the nurseries to two hundred and seventy-five acres, making probably one of the largest nurseries of strictly ornamental trees, shrubs and hardy plants in the United States. To facilitate the carrying on of this extensive business, an office was opened at Dreshertown for the transaction of the wholesale department of the firm—the stock grown at this place also being used entirely for wholesale purposes. The Germantown office and nurseries will be confined entirely for the carrying on and growing of stock for retail purposes only.

This consolidation and separation of the wholesale and retail department of the business will enable both branches to conduct their respective departments more satisfactorily, and to handle the business and ship stock more quickly than has heretofore been the case.

Though the business has been incorporated, the ownership and management remains wholly in the hands of the former members of the firm.

### DECIDUOUS TREES.

"Trans." signifies the stock has been once or more transplanted.
"Seed." that it is still in Seedling Beds.

					Per 10	Per 100	Per 1000

44	44	**	44	15 to 18 ft. trans.	35 00		

These 15 to 18 feet trees are extra selected specimens, transplanted three years ago and planted wide apart, enabling the heads to develop into large shapely tops. They have perfectly straight stems and have an abundance of strong, fibrous roots. They are particularly desirable for use where a selected, transplanted and well developed tree is required for immediate effect.

Fig. The Ginnale Maple is remarkable for the brilliant coloring of its leaves in the fall. It is not a large-growing tree, but rather a good-sized bush.

#### JAPANESE MAPLES.

War It will be observed that nearly all of our Japanese Maples are pot-grown. This makes transplanting almost certain of success. Our plants are all home-grown and are much more hardy and healthy than the weak, imported stock.

The 12 to 15 feet Planes are specimen trees, originally selected from our young blocks, and set out in wide nursery rows to allow them ample room to develop. They are extra fine, shapely specimens, and where such a tree is required for an immediate effect, in a prominent position, these trees will be found to be exactly what is required.

##Particular attention should be given by planters to the different varieties of Pyrus Malus, such as floribunda, flexilis and Toringo. These sorts produce masses of small apples not much larger than a small cherry, and their effect either in mass planting or as individual specimens is very attractive. The coronaria is the sweet-scented crab, which is now largely used in landscape planting.

Caryopt	eris Mast	acanthu	s, "Blue S	piræa	" 18 to 24 in. trans.	1 00	9 00	80 00

\*\*This is not a Spiræa, though it has been given this common name. It produces great masses of blue flowers, commencing in early September and continuing until the middle of October. It is one of the very few fall-blooming shrubs of merit. While it makes a good appearance planted as a single shrub, it is particularly striking when set in beds or masses.

.44	6.0	6.6	" specimens,	4 to 5 ft, trans.	10 00		

The specimen plants are very heavy and bushy. They have been planted far apart in the nursery rows, and every care exercised to make fine selected and bushy specimens that will create an immediate effect when planted in permanent positions. For use in landscape work, where individual specimens are required, these plants will be found very effective.

\*The Eleagnus parvifolius is one of the few really good and useful shrubs that have been slighted by planters. It is of strong habit, rather dense growth, and is quite hardy. The foliage on the upper surface is of light-green color, but on the underside it is silvery. It produces enormous quantities of red berries speckled with silver. It makes an excellent hedge plant.

The 5-feet specimen plants are large, heavy shrubs. They were transplanted three years ago and given ample room to develop. These specimen shrubs will be found most useful where an individual plant is required to create an immediate effect, and scarcely any shrub can be used for as many purposes as the Spice Bush.

## EVERGREENS.

\*\*All of our evergreens have been once or more transplanted, the larger sizes several times, and the choice varieties we move every period not exceeding two years. These choice varieties are all dug with a ball of earth and the ball sewed in a mat. This makes transplanting almost an assured success.

## VINES AND CLIMBERS.

Special attention is called to the Vines offered from pots. These were potted up early last spring and have been carefully grown and trained to stakes. They are taken out of the pot before shipping, and placed in a paper flower-pot; this, while preserving the ball, reduces the weight. These vines will be found much more satisfactory to use than those from the open ground; and far better and quicker results are obtained.

Pear, French (scarce)6-10 mm.	I 75	13 00		
" "	I 00	8 50		
" "	75	5 25		
NOTE.—In spite of the fact that French Pear Stocks were largely offered early in the season, it is now found that they are very scarce. In view of the limited quantities offered we can only accept orders for French Pear Stocks when other fruit stocks are also ordered in equal proportions.		- ,		
Quince, Angers7-12 mm.	I 50	12 00		
"4-6 mm.	I CO	8 00		

Prices given above are not import prices. The prices named are for the goods here at Dreshertown, freight and duty paid. Cost of box and packing will be additional.

#### FRUIT SEEDS.

While we try to procure the very best seeds on the market we give no guarantee, either expressed or implied. Samples will always be furnished when applied for. If the seeds are not accepted on these terms, we must be notified at once. If they are kept it will be taken as proof that they are satisfactory. All claims must be made upon receipt of goods.

Apple, French Crab. (Scarce.) Prices upon application.

Cherry, Mahaleb. (Scarce. Supply exhausted.) Cherry, Mazzard. 20 cts. per lb.; \$7.00 per bus.; 3 bus. @ \$6.00 per bus.; 5 bus. @ \$5.00 per bus

Plum, Myrobolan. 40 cts. per lb.; \$11.00 per bus.; 3 bus. @ \$10.50 per bus. Peach, Natural. 20 cts. per lb.; \$1.25 per bus.; 10 bus. @ \$1.15 per bus.; 100 bus. @ \$1.05 per bus.

These are the best small-sized Southern Natural Pits. None better.

Pear, French. Prices upon application.

Pear, Kieffer. \$2.25 per lb.; 25 lbs. @ \$2.00 per lb.; 50 lbs. @ \$1.75 per lb.; 100 lbs. @ \$1.50 per lb.

Quince. \$1.50 per lb.; 5 lbs. @ \$1.25 per lb.; 10 lbs. @ \$1.00 per lb.

When seeds are to be sent by mail add 10 cts. per lb. to the price to cover cost of postage.

1 bale (about 225 lbs) @ 9 cts. per lb.; 100 lb. bale @ 10 RAFFIA: cts. per lb.; 50 lb. bale @ 11 cts. per lb.; 25 lbs. @ 12 cts. per lb.; 1 lb. @ 15 cts. per lb.; 1 lb. (post-paid) for 30 cts.
